SR/S TOP RACK

- Available as rack assembly or with a SHAD SH39 top case
- Manufactured using black powder-coated steel
- SHAD SH39 case has 39 liters of capacity and max. load of 8.8lbs (4kg)

PART NUMBERS:
10-08280 2020 [ZERO SR/S]

SR/F TOP RACK

- Available as rack assembly or with a SHAD SH39 top case
- The rack offers integrated passenger grab rails and has mounting holes compatible with GIVI Monolock adapter plate
- Manufactured using black powder-coated steel
- SHAD SH39 case has 39 liters of capacity and max. load of 8.8lbs (4kg)

PART NUMBERS:

ZERO TOP BOX BY GIVI AND RACK KIT

Lockable, easily removable and aerodynamic, the Zero Top Box was designed by GIVI to offer convenient storage in a central location. Positioned behind the rider or possible passenger, the top box does not widen your motorcycle and sits in the rider’s slipstream. With 34 liters of capacity and a maximum load of 3 kg, the top box is large enough to hold a helmet and many other goods simultaneously.

The top box uses the GIVI Monolock system and includes all the hardware needed for installation as well as the rack and mounting plate. The rider-facing side of the top box includes a cushion that comfortably supports the back of any potential passenger.

The rack is made of powder-coated black steel and includes the GIVI Monolock plate. In addition, it is designed to double as a passenger grab rail.

The Zero Top Box by GIVI and Rack Kit can be installed in conjunction with the Zero Side Cases by GIVI and Rack Kit.

PART NUMBERS:
- 10-05728 2016-2020 [ZERO S, SR, DS, DSR]
- 2014-2015 [ZERO S, SR, DS]
- 2013 [ZERO S, DS]

TOP BOX RACK KIT

Zero Motorcycles designed the black powder-coated steel side rack system to bolt directly into the frame of your Zero S, Zero SR, Zero DS or Zero DSR. This kit includes the necessary hardware to mount GIVI Monokey Side Cases and is identical to the rack that is included when you purchase the Zero Side Cases by GIVI and Rack Kit. This kit can be used in conjunction with the Zero Top Box by GIVI and Rack Kit.

PART NUMBERS:
- 10-06921 2016-2020 [ZERO S, SR, DS, DSR]
- 2014-2015 [ZERO S, SR, DS]
- 2013 [ZERO S, DS]

GIVI TREKKER TOP BOX AND RACK KIT

Give your Zero DS or Zero DSR a rugged adventure touring look by adding Givi’s Trekker 33 Liter Top Case. The aluminum/polypropylene top case utilizes the patented Monokey system and is lockable, waterproof and easily removable. It supports a maximum load of 22 pounds, but the shape will not allow you to store a helmet inside.

We include all the hardware needed for installation as well as the rack and mounting plate. The rack is made of powder-coated black steel, which is designed to double as a passenger grab rail.

This kit can be installed in conjunction with the Zero Side Cases by GIVI and Rack Kit.

PART NUMBERS:
- 10-08003 2016-2020 [ZERO DS, DSR]
- 2013-2015 [ZERO DS]
The Zero FX Top Box Rack Kit was designed by Zero Motorcycles to meet rugged demands. It offers integrated passenger grab rails and enables you to mount your own top box. The rack is manufactured using black powder-coated steel and is identical to the rack that is included when you purchase the Zero FX Top Box by GIVI and Rack Kit but does not include the GIVI top case or the GIVI Monolock mounting plate. Installation is easy and can be accomplished in less than 30 minutes.

**PART NUMBERS:**
- 10-08024 2016-2020 [ZERO FX, FXS]
- 2013-2015 [ZERO FX]

ZERO 22-LITER SIDE CASES BY GIVI AND RACK KIT

Lockable, removable and spacious, the Zero Side Cases were designed by GIVI to elegantly maximize the storage onboard your motorcycle. Integrating nicely into the overall aesthetic of your motorcycle, the black powder-coated steel rack system bolts directly into the frame of your Zero S, Zero SR, Zero DS or Zero DSR. It utilizes the GIVI Monokey system which enables opening the cases or detaching them from the motorcycle rack using one key.

The Side Cases can carry up to 22 liters or 5 kg and come with all mounting hardware included. The placement of the cases does not interfere with the passenger-carrying capabilities of the motorcycle. This kit can be used in conjunction with the Zero Top Box by GIVI and Rack Kit.

PART NUMBERS:
10-08119 2016-2020 [ZERO S, SR, DS, DSR]

10-05960 2014 [ZERO S, SR, DS]
2013 [ZERO S, DS]
ZERO SOFT SADDLEBAGS

The Zero Soft Saddlebags provide convenient cargo space to store up to 16 liters per bag (32 liters total) of goods and equipment. They are constructed of rugged and high-quality materials that provide high durability and a premium look. The system is designed to mount quickly and easily.

Key features include:
- 1680 denier polyester
- Sewn-in rain hood and zipper pulls with extenders
- Quick-release buckles and reflective markings
- Velcro attachment and web strapping for easy installation
- Side compartments and mesh lid pockets for small items
- Plastic-molded handle

Dimensions:
Side bags: 16 x 10 x 7.3 in.

ZERO SMARTPHONE MOUNT
BY RAM® MOUNTS

The Zero Smartphone Mount was developed by RAM® Mounts and uses their X-Grip® technology to securely hold most mobile phones and iPod touch-sized devices in place. Designed for convenience, X-Grip® allows you to very quickly mount or remove your phone with your gloves on. The minimalist design holds the phone in place using rubber-padded metal arms. The mount includes a 2.4” ball-end extension arm for mounting your mobile device in any orientation and an easy-to-install handlebar mount.

The mount works with the Apple iPhone 3G, 4, 4S, 5, iPod Touch, Samsung Galaxy S4 and Google Nexus 4. In addition, the mount is compatible with most other smartphones that meet the following dimension requirements: minimum width = 1.875”, maximum width = 3.25” and maximum depth = 0.875”. Please verify the dimensions with any case that is used. We strongly recommend mounting in a horizontal orientation behind a windscreen. Note that this mount does not shield your phone from water or other elements.

COMMUTER SCREEN

The Commuter Screen provides maximum wind deflection, adding further practicality to your Zero S, Zero SR, Zero DS or Zero DSR. Improving wind flow without requiring you to tuck, it improves your freeway comfort. Designed in partnership with MRA, a leading motorcycle screen manufacturer, the Commuter Screen is designed to last.

The Commuter Screen comes with all needed parts for installation and mounts easily onto the handlebar risers.

PART NUMBERS:
10-05722 2016-2020 [ZERO S, SR, DS, DSR]
2014-2015 [ZERO S, SR, DS]

TOURING SCREEN

The Touring Screen offers our highest degree of wind and weather deflection, further enhancing rider comfort. Turbulence is minimized by the use of an adjustable spoiler. Designed by Zero Motorcycles to fit your Zero S, SR, DS or DSR motorcycle, model years 2013 and newer. Manufactured by MRA, the Touring Screen is made from specially modified material that’s nearly unbreakable.

The Touring Screen comes with all needed parts for installation and mounts easily onto the handlebar risers.

ZERO HANDGUARDS BY CYCRA
Protect your hands from trees, brush, and rocks with the Zero Hand Guards. Designed by Cycra Racing, the black anodized bars and handlebar clamps integrate neatly onto your motorcycle’s handlebars. In the event of a crash, the handguards serve to protect your brake lever as well as other handlebar controls.

Included with this handguard kit are black or white, high impact plastic hand shields, all the hardware needed for installation.

The Touring Seat was designed by Zero Motorcycles for Zero Motorcycle riders. The dual-layer foam was selected because of its qualities of increased comfort and performance, for both rider and pillion. The subtle design details and double-stitched fabric gives the Touring Seat a premium aesthetic at an affordable price. The Touring Seat installs easily and is a direct replacement for the original seat. A nice upgrade for those who enjoy (seek) taking the long way.

- 27-08196 LOW SEAT - 2020 (ZERO SR, S, SR/S)
**ZERO TANK GRIPS BY TECHSPEC (ZERO S, ZERO SR)**

Zero Tank Grips were developed in cooperation with TechSpec. Made from their premium Snake Skin material with a thickness of 0.125 inches and a low profile diamond pattern, the tank grips feature the TechSpec proprietary releasable adhesive. These properties give you an improved leg grip on your tank and reduce pressure on your wrists, elbows, and shoulders. Riders typically report improvements in the comfort and quality of their ride, improved motorcycle handling characteristics and less fatigue. Compatible with 2013-2020 Zero S and Zero SR motorcycles.

6 KW CHARGE TANK

Charge 6x faster using the 6 kW Charge Tank combined with Level 2 charging stations. This dealer-installed accessory complements the standard on-board charger of 2015-2020 Zero motorcycles, reducing typical charge times to 1-2 hours. It includes a new tank section that eliminates the tank bag from the motorcycle. The Charge Tank is not compatible with motorcycles equipped with the Power Tank accessory.

Charge Tanks for 2015-2016 models will be available spring, 2019. Painted Charge Tank bodywork does not match 2015-2016 model colors. Matching painted body parts are available to fully renew the look of your motorcycle.

POWER PACK MODULE CHARGING ADAPTER

The Power Pack Module Charging Adapter is required to charge your ZF2.8, ZF3.3 or ZF3.6 Power Pack Modules when removed from your motorcycle. The adapter is used in conjunction with a Quick Charger.

Please note that the adapters are not compatible between model year 2013 and model year 2014-2020 Zero Motorcycles.

PART NUMBERS:
10-07601 2016-2020 [ZERO FX, FXS]
2014-2015 [ZERO FX]
10-05741 2013 [ZERO FX, XU]

ZF3.6 POWER PACK MODULE

ZF-Force® power pack technology has been revolutionizing the electric motorcycle industry since 2007 when the first Zeros started rolling out of the Santa Cruz factory. The goal: pack more energy into less space. Using state-of-the-art lithium-ion cell chemistry and advanced battery management systems, the ZF3.6 Power Pack Module offers incredible power density and versatility.

Zero Motorcycles is the first electric motorcycle manufacturer to feature available hot-swappable modules. This optional system allows the Zero FX and Zero FXS to be ridden using either one or two ZF3.6 modules. Modules can be moved between compatible motorcycles quickly, without concern regarding the state-of-charge or relative age of the accompanying module.

PART NUMBERS:
46-08117 2017-2020 [ZERO FX MODULAR, FXS MODULAR]
2015-2016 [ZERO FX, FXS]

SR/S  SR/F  SR  S  FXS  DSR  DS  FX
QUICK CHARGER

The 96-volt Quick Charger can be used either for motorcycle quick charging or off-board power pack charging of 2013-2020 Zero Motorcycles.

Motorcycle quick charging
One Quick Charger provides an additional 1 kW of charging capability. When used with your motorcycle’s integrated charging system, this approximately doubles the amount of energy flowing to the power pack during charging. As a result, the charge time of a Zero motorcycle is reduced by around 50%. To charge even faster, multiple Quick Chargers can be purchased and used with a Quick Charger Y Adapter to reduce the charge time further.

Off-board power pack charging
The Quick Charger can be used to charge power pack modules when removed from the motorcycle. The ZF2.8, ZF3.3 or ZF3.6 Power Pack Modules, used with the Zero FX, Zero FXS and Zero XU motorcycles, require the Power Pack Module Charging Adapter when the power packs are charged off-board.

The Quick Charger North American kit includes a cord approved for use in North America, and the Quick Charger (96 Volt) UK and Hong Kong kits include a cord approved for use in the UK and Hong Kong.

PART NUMBERS:

- 10-08050 2013-2020 UNITED KINGDOM
- 10-08050 2013-2020 SOUTH AFRICA

QUICK CHARGER Y ADAPTER

The Quick Charger Y Adapter allows you to charge your motorcycle with multiple Quick Chargers to significantly reduce charge times. The single plug side of the adapter inserts into the charging port on the motorcycle (or power pack) and the double side of the adapter plugs into the outputs of two separate quick chargers. This adapter was designed specifically for use with 2013-2020 Zero motorcycles.

PART NUMBERS:
- 10-05739 2013-2020
The SAE J1772 Charging Adapter allows you to charge your Zero using applicable public electric vehicle charging stations. The charging adapter plugs directly into the standard charging port of applicable models and does not require any installation or modification of your motorcycle.

Please note, the SAE J1772 Charging Adapter will not speed up your motorcycle charge time, which is limited by the motorcycle’s integrated charger. Also, some public J1772 charging stations require the vehicle to authenticate itself. The SAE J1772 Charging Adapter does not support charging stations that require such authentication.

**HEADLIGHT GRILL**

The Headlight Grill was designed by Zero Motorcycles to add protection and style for off-road Zero Motorcycle riders. After installation, the Headlight Grill will provide protection from trail hazards, roost, and flying debris, reducing the chance of damage to the factory headlight. The Headlight Grill is manufactured using powder-coated steel and comes with all necessary mounting hardware. A must-have for serious off-road riders.

Note: not homologated for street use; for off-road use only.

ZERO FX REAR SHOCK BY FOX

For Zero Motorcycles, the words “Crafted in California,” are not just a slogan but an imperative. And so it should come as no surprise that we have worked closely with our neighbors at FOX, a leader in the design and development of high-performance shocks, to create a premium rear shock for our hardcore Zero FX riders. The Zero FX Rear Shock is based upon the PODIUM RC2 shock from FOX. It features a 37mm aluminum hard-anodized body, 5/8” super-finished hard chrome and DLC coated shaft. Adjustments are available for dual-speed compression, wide-range rebound, and spring pre-load. This shock is compatible with both the 2013 and 2014 Zero FX.

**GARAGE**

**ZERO PARKING BRAKE KIT**

The Parking Brake Kit was designed by Zero Motorcycles to meet the steepest demands of Zero riders. When engaged, the Parking Brake Kit utilizes the rear brake disc to keep your Zero Motorcycle firmly planted, reducing the chance of rolling. The new caliper fits securely in place on the rear brake assembly and is operated by the hand brake lever mounted on the handlebars. Happy Parking!
